This is State's 2^d attempt with OGC. They are not quick to learn apparently and not to understand the difference between cover and security is truly amazing. I suggest para 1 for DDA log.

CONFIDENTIAL

9 April 1980

MEMORANDUM FOR: Chief, Policy and Plans Group

FROM: (C)
Security Education Group

SUBJECT: DDA Weekly Log (U)

reporting period

3. 1. During the ~~week of 7 April 1980~~ a briefing was afforded approximately 52 employees of OGCR by the Security Education Group at the request of the NFAC Security Staff. The emphasis was placed upon inherent problems concerning official travel to overseas installations. Topics of particular interest were personal protection, unauthorized removal of classified material, telephone security, cover and travel to Denied Areas. (U)

2. The group was afforded a thirty minute briefing and for the next hour questions were answered covering a variety of security topics. Of significant interest was the apparent ignorance concerning the functions of the Office of Security. Among other security issues that surfaced was the fact that they believed the Central Cover Staff to be part of Security and blamed Security for the lack of interest displayed during cover briefings. (U)

3. By and large the briefing appeared to be a success as far as the NFAC Security Staff was concerned. It was beneficial to OGCR, but only time will tell if they are willing to discipline themselves in the way necessary to accept Security as a positive control for the protection of classified material. (U)
